FIRE DEPARTMENT NEWS

Someone flipped their car on State Route 373 & someone flipped their quad and bumped their head out at the sand dunes . That sounds like news , but its not news at all to us , that kind-a thing happens all the time and the fire department gets called out . The real news is that we had four new people show up at our last monthly meeting . Its seems that we are finally getting through to people that you don't have to be young & strong to be on the fire department . I've been saying all along that you don't need endurance & stamina to do most of what we do on the fire department . Only once or twice a year does one of us need to drag a hose up to a burning building & squirt water through a window & we have a few young people for that . There are dozens of easier activities at a fire or a car wreck that anyone can do . Then there are dozens more things that need done at the station . I've been distributing a list to people so that they can see how many ways there are that they could help . I can't call them old people because they are my friends, but we had four of my friends who saw this list & saw that they could help , decide to come to the last meeting . Ya, lets not call them old people, lets just say that they aren't going to want to drag a charged two an a half inch hose accross the street , but they are convinced now that they can help the fire crew on a call-out or at the station & they want to help . Another bit of news is that the VFD has chosen another date for an open house / barbeque. April 26th we will be inviting specifically our Ambulance friends , Beatty fire , Pahrump fire , Shoshone fire , Radio club , Medivac helicopter crews, Town Board members , etc . but it would be a great time for anybody to drop by & see who we are , what equipment we have & what we need help with .
